

Ashok Pate

PROFILE

Goal oriented developer with a problem solving mindset looking for an opportunity to enhance and explore my technical knowledge gained at CDAC. I have completed Post Graduate Diploma in Advanced Computing and have knowledge of Java, Spring, Web Development, React js.

PROJECTS

E-LEARNING HUB

React, Spring Boot, MySQL, JAVA

The main aim to develop E-learning Hub portal is to make online learning platform where admin can approve the instructor to this platform and instructor can upload their courses on this portal and students can easily access these courses from one place. We have designed this website the way in that student are provided with both paid and unpaid courses as well. Technologies used are MySql, Springboot, ReactJS, JAVA.

ONLINE QUIZ PORTAL

Java

It is a online quiz application, where teachers can create and publish quizzes and student can take part in those quizzes. It also provides users management module that offers function such as signup/register, login and reset password. Admin can create a student , teacher or co-admin. And admin can Update and delete any user. Student can register or login and also provided with the functionality to reset their password. Teachers can see student name, attempt time, score and can add questions.

CERTIFICATIONS

DIPLOMA IN ADVANCED COMPUTING - CDAC

JAVA, Data Structure, Web Technologies, Database, Spring

PRODUCT DESIGN

Design products with help of 3D rendering softwares
