CAREER SUMMARY

- I am a full-stack web developer with hands-on experience, seeking an opportunity to enhance and explore the technical knowledge I gained at CDAC
- I have completed a Post Graduate Diploma in Advanced Computing and possess expertise in Java, Spring, Web Development, React, and MySQL

Projects

Project 1: E-LEARNING HUB   **Technologies: React, Spring Boot, MySQL**

- Developed an E-learning Hub portal to provide a comprehensive online learning platform.
- Implemented an Admin Module for approving instructors and managing the platform.
- Enabled instructors to upload and manage their courses on the portal.
- Facilitated students' access to both paid and unpaid courses from a single platform.
- Utilized MySQL, Spring Boot, and React.js for backend, frontend, and database management.

Project 2: E-COMMERCE WEBSITE   **Technologies: React, Spring Boot, MySQL**

- Developed a robust e-commerce platform using React, Spring Boot, and MySQL.
- Designed and implemented a product category for an enhanced user experience.
- Secured the platform with user authentication and authorization mechanisms.
- Managed efficient shopping cart functionality, supporting smooth user interactions.
- Integrated payment gateways and order processing systems for seamless transactions.
- Provided a responsive and intuitive UI for both desktop and mobile users.

Project 3: Online Driving License System   **Technologies: React, Spring Boot, MySQL**

- Developed an Online Driving License System with dedicated modules for Administrators and Citizens.
- Implemented the Administrator Module to manage and update the status of learning and permanent licenses, with options to edit, delete, and track applications.
- Designed the Citizen Module for user registration, license application submission, document uploads, and status tracking.
- Integrated essential document upload features, including Aadhar Card, photograph, and signature for license applications.
- Added a mock test feature for citizens applying for a permanent license to help them prepare for the actual test.
- Provided a user-friendly interface with responsive dashboards and clear success indicators for both admin and citizen activities.

SKILLS & OTHERS

- **Programming Languages**   Core Java, Data Structures, HTML, CSS, JavaScript, React, Spring Boot, Hibernate, Servlet J2EE, C, C++
- **Operating System**   Windows, Linux,
- **IDE**   VS Code, Eclipse, STS 4.
- **Relational database**   MySQL
- **Other Skills**   Communication, Leadership, Management, Team Work.

EDUCATION

POST GRADUTION DIPOMA IN ADVANCE COMPUTING.	CDAC Kharghar Mumbai	2022	71%
Bachelor of Engineering (BE)	Dr. BAMU University	2020	75%
Diploma	MSBTE University	2015	66%
SSC	State Board of Maharashtra	2012	84%
